Excursions

Monday's excursion

📍 Ljubljana

Tuesday's excursion

📍 Postojna Cave

Treasure hunt

The treasure hunt will take you through the hidden corners of Portorož and Piran.

At each of the 55 checkpoints we have prepared for you to visit, you will find a task that will challenge your wit and skill.

While you're racing through the town and solving tasks, you will get to know your teammates better and, most importantly, warm up for the competitive part of EGMO.

Limber up – the best three teams will be awarded!

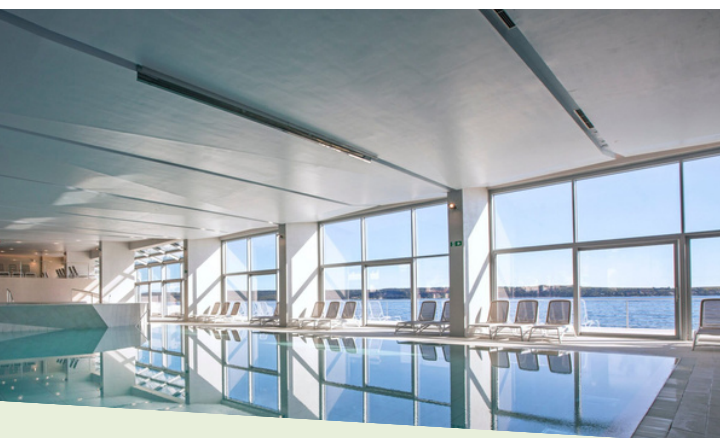

Everyday activities

- Morning Workout: Energize Your Day
- The Board Game Zone: A Heaven for Game Lovers
- Poolside Paradise: Sea Water Park Termaris
- Women of mathematics throughout Europe – A gallery of portraits: <https://womeninmath.net/>

More about everyday activities:

Scheduled activities

Dreamland Workshop: A Journey to Relaxation and Better Sleep

In the days before and during the competition, it's easy to become overwhelmed and stressed, which can also influence the quality of your sleep. Our workshop is designed to provide you with relaxation techniques to help you unwind and get a good night's rest.

FRIDAY AND SATURDAY

Competition Ready: A Guided Visualization

We will start the day with a guided visualization, which is designed to help you achieve your best performance in the competition. It can help boost your confidence and reduce anxiety as well as improve your concentration and focus. Join us for this short mental bootcamp and get ready to face the challenges of the competition.

SATURDAY AND SUNDAY

Spice up Your Dance Moves: A Salsa Workshop

Join us for an evening salsa workshop, where you will learn all the steps you need to shine on the dancing floor. This sensual Latin dance will take us all the way to Cuba, where it originates from. Let's Salsa!

SUNDAY

Round table: Successful women

The host of the roundtable discussion will be Maja Ratej, a journalist, bringing together a mathematician, prof. dr. Nežka Mramor Kosta, a physicist, dr. Dunja Mladenčić, and a mechanical engineer, Rosana Kolar.

MONDAY

Rhythmic Voices: Exploring Body Percussion

Body percussion is like making music with your body! You get to clap, stomp, snap, and slap your way to creating awesome rhythms and beats. It's like being a one-person band, but without any instruments. So, let's get those hands and feet moving and make some noise!

MONDAY

Jane Street SPONSOR HUB and ESTIMATHON

We are excited to announce that global trading firm, **Jane Street**, is EGMO 2023's **PLATINUM SPONSOR**.

Jane Street is committed to supporting the next generation of problem solvers and is excited to enhance the EGMO experience for this year's competitors. They will be hosting an interactive "Jane Street Hub" at the Histrion Hotel, where students can play games, complete challenging puzzles, pick up some swag and relax with their fellow competitors throughout the competition. **Be sure to check it out!**

Do you know how many computers were connected to the Internet on 1 January 1989? Or how many YouTube videos have more than 1 billion views? What about the bandwidth beneath the Atlantic Ocean? If you want to solve problems like these, join us at the upcoming Estimathon!

Saturday and Sunday, 4:30pm to 6pm

Histrion Hotel, Asteria Hall
